Jose,

FYI - Ben called. TCEQ will be submitting an informal draft of El Paso's Class V aquifer exemption request. He informed me that there has been some high level lobbying to move the exemption forward. It has not yet undergone public notice and Ben is hoping both agency's could have an informal level of understanding before they published notice.

From his description this should prove very interesting. The modeling by LBG - Guyton shows a plum stretching to the south 25 miles long by a few miles wide that does not encroach on NM 1/4 mile away to the North. I know. I told Ben we need to see what they offer. Thanks.

Subject: The CCH Transcripts - Goliad Project

Hello Phil:

FYI: David Gillespie informed me that the TCEQ attorney assigned to the Goliad Project will send EPA a CD with the "Transcripts" for this hearing, and that she will e-mail him files with transcripts of the "Closing Arguments". So, it looks like, after all, we will have the opportunity to learn more about the latest developments on this case.
